Port of Aalborg A/S, Langerak 19, 9220 Aalborg East, or by email, cb@portofaalborg.com

Terms and conditions for excavations on Port of Aalborg A/S' land

1. Excavations must be carried out with as much regard for the surroundings as possible, ensuring that traffic on the affected roads is not obstructed or significantly inconvenienced. The applicant is responsible for ensuring this.
2. The applicant is responsible for any inconvenience or damage the excavation may cause to pipes, cables, rail tracks, fixed points, etc.
3. Applicants assume liability for any damage to Port of Aalborg A/S' property or property belonging to a third party due to pipe or cabling work.
4. The applicant has a duty to obtain necessary advance information about existing pipes and cables from the relevant authorities. In addition, the applicant must make the necessary arrangements with the Danish state railways (DSB) and the police for traffic flow during the work. Furthermore, the applicant must ensure that all necessary barriers and markings, both of the excavation and the temporary backfilling, are in place until the area is fully and finally reinstated.
5. If existing pipes and cables are affected by the excavation, a prior agreement regarding necessary measures must be made with Port of Aalborg A/S and the affected utility owners.
6. The work must not entail costs for Port of Aalborg A/S.
7. Backfilling must be performed before the work ends. When backfilling, no chalk, clay or other non-frost-resistant fill must be used within 1 metre of the surface. The applicant also assumes full liability for subsidence due to defective work.
8. Any changes to the layout of the road must be agreed upon with Port of Aalborg A/S on an ongoing basis. After completion of the work, a plan must be submitted showing the final location of the surveyed pipe or cable.
9. At the discretion of Port of Aalborg A/S' final reinstatement will be performed by Port of Aalborg A/S at the applicant's expense or by the applicant, cf. the agreement thereon on th
10. The pipe or cable must immediately be removed or redirected at no cost to Port of Aalborg A/S, if at any point Port of Aalborg A/S considers this necessary in the interests of the port.
11. Once any defects have been rectified, corrected and approved, the notification of completion provided with the excavation application must be returned as confirmation of final completion of the work.
12. Applicants arrange for Port of Aalborg A/S to be invited to a handover procedure immediately after completion of the work. At this meeting, all parties inspect the affected areas together and the final layout of the road in-situ is shown.
13. One year after notification of completion of the work, the applicant invites Port of Aalborg A/S to a one-year inspection.
